

NOTICE OF DETAIL DESIGN COMMENCEMENT & PUBLIC INFORMATION CENTRE
Queen Elizabeth Way (QEW) Improvements from East of Cawthra Road to The East Mall
Detail Design and Class Environmental Assessment Study – G.W.P. 2102-13-00 & G.W.P. 2432-13-00

THE PROJECT

AECOM has been retained by the Ontario Ministry of Transportation (MTO) to undertake a Detail Design and Class Environmental Assessment (EA) for improvements to the Queen Elizabeth Way (QEW) from east of Cawthra Road to The East Mall. The project limits are located in the City of Mississauga, City of Toronto and Region of Peel.

PROPOSED IMPROVEMENTS

- Replacement of the QEW / Dixie Road Underpass and reconfiguration of the QEW / Dixie Road Interchange to a full-moves interchange including modifications to municipal roads;
- Replacement of the Etobicoke Creek Bridge;
- Replacement of the Ogden Pedestrian Bridge and structural culvert west of Dixie Road;
- Rehabilitation of The West Mall Ramp bridges over Etobicoke Creek and the QEW;
- Realignment of local service roads;
- Rehabilitation of the Brown's Line Overpasses;
- Localized QEW widening to accommodate operational and safety improvements and to maintain six lanes of traffic during construction;
- Drainage improvements including the addition of stormwater management ponds;
- Watermain and sanitary sewer works;
- Modifications to / installation of retaining walls, noise barriers, sign-structures, traffic signals and illumination.

A Transportation Environmental Study Report (TESR) was completed in January 2016 for the *QEW from Evans Avenue to Cawthra Road (W.O. 09-20003)* and approved by the Ministry of Environment and Climate Change on September 25, 2017. The recommendations from the TESR will be built upon as part of the Detail Design study.

THE PROCESS

This project is following the approved planning process for a Group 'B' project under the MTO *Class EA for Provincial Transportation Facilities (2000)*, with the opportunity for public input throughout the project. Following the Public Information Centre (PIC), a Design and Construction Report (DCR) will be prepared to document the study process, design details, environmental impacts and mitigation measures, and a summary of consultation undertaken. The DCR will be made available for a 30-day public review period. The DCR review period will be advertised in local newspapers, the project website, and mailed to those on the project contact list.

PUBLIC INFORMATION CENTRE

The public is invited to attend the PIC on:

December 18, 2017
4:00 p.m. to 8:00 p.m.
Le Tréport Convention Centre
1075 Queensway East
Mississauga, ON L4Y 4C1

The public is invited to attend the upcoming PIC for this project. The purpose of the PIC is to present and receive input on the recommended Detail Design plan, construction staging details, and proposed mitigation measures to address potential environmental impacts. This PIC will be an informal drop-in centre with representatives from the MTO and the Consultant Team available to answer questions and discuss the project.

COMMENTS

To obtain additional information, provide comments, or to be placed on the project mailing list, please contact the Project Team as follows:

Wan Chi Ma, P.Eng.

Comments are being collected to assist MTO with the design and to meet the requirements of the *Ontario Environmental Assessment Act*. This material will be maintained on file for use during the study and may be included in project documentation. Information collected will be used in accordance with the *Freedom of Information and Protection of Privacy Act*. With the exception of personal information, all comments will become part of the public record. If you have any accessibility requirements in order to participate in this project, please contact one of the Project Team members listed above.
